**Take these records 'with a grain of salt.'**

The race's point-to-point course design magnifies the importance of wind readings in producing fast times, and yearly wind (and other weather) conditions have varied widely.

The current age brackets (indicated on this page) were established in 2004.

Times from years prior to 2004 were retroactively included in the new divisions by investigating and extrapolating the actual ages of the runners in question.

Unfortunately, there were also times when finish times (most notably 2006) were not recorded for runners. **Please** do email us if you notice an omission or other mistakes that you are positive is an error.
