

Race Track Road
(dirt road up to 10 km out and 10 km back -- more possible)

An out-and-back dirt road with nice scenery. Normally passable from May 1st through November 1st, but snow and ice can linger in high areas. Gains 240 m up to a maximum altitude of 1900 m. Additional "road" climbs steeply over rough terrain to the lakes above.

Directions:

Exit I-90 at Racetrack (exit #195) and proceed west on Racetrack Road to the "T" and then south (left) on Yellowstone Trail Road (these are country roads that are not always identified with signs) and then take the first right turn on Bowman Road and follow it to Race Track Campground. Run the road up Race Track Canyon and back.

Description:

The route follows the stream through timber.

Negatives:

There is a big climb shortly after the start.
